PURCHASING THE RIGHT PILLOW FOR YOU

We think of pillows as "the bed for your head" because that's how important they are to getting the best nights rest possible. Our Sleep Experts can match your sleep style (the most common position you sleep in) with a pillow that offers you all the support you need. What's more, unlike other pillow retailers, you can actually try them out on a mattress inside our stores to feel the differences for yourself.

For over 140 years, the Simmons Bedding Company has not stopped innovating to help the world sleep better every night.

Simmons mattresses are designed to help us rediscover what used to be innate: blissful, restful, real sleep.

INTERESTING FACTS

1958

Simmons became the first mattress company to introduce the king and queen size mattresses

1900

James Marshall patented the wrapped coil spring. Because each one was made manually, the time and labour involved drove the cost so high that they could only be found on luxury liners such as the Titanic.
